Motivation in Learning and Teaching -- Part III. Teaching and Assessing. 13. Managing Learning Environments -- 14. Teaching Every Student -- 15. Classroom Assessment, Grading, and Standardized Testing. Responsibility: Anita Woolfolk, The Ohio State University, Emerita. "Since the first edition of Educational Psychology appeared, there have been many exciting developments in the field. The thirteenth edition continues to emphasize the educational implications and applications of research on child development, cognitive science, learning, motivation, teaching, and assessment. Theory and practice are not separated in the text, but are considered together. The book is written to show how information and ideas drawn from research in educational psychology can be applied to solve the everyday problems of teaching. To help you explore the connections between research and practice, you will find in these pages a wealth of examples, lesson segments, case studies, guidelines, and even practical tips from experienced teachers. As you read this book, I believe you will see the immense value and usefulness of educational psychology. The field offers unique and crucial knowledge to any who dare to teach and to all who love to learn."-- Best www.amazon.com · Educational Psychology, 14th Edition emphasizes the educational implications and applications of research on child development, cognitive science, learning, motivation, teaching, and assessment.
